9.00 Opening of the Congress
Chair persons:
Axel R. Zander, Boris Afanassyev

Greetings:
Roland Salchow
Jörg F. Debatin
Nikolay Yaitsky

Session 1:
Stem cell transplantation – the cooperative experience

10.00 Boris Afanasyev
Development of Bone Marrow Transplantation in Russia

10.15 Axel R. Zander
Development of Bone Marrow Transplantation in Hamburg

10.30 Coffee Break

Session 2: New developments in leukemia and lymphoma

11.00 Chair persons:
Carsten Bokemeyer, Ludmilla Zubarovskaya

Margarita Belogurova
Results of the 15-years Cooperation between Pediatric Oncological Departments in Hamburg and St. Petersburg

Elmira Boichenko
Improving the Outcome of Pediatric Acute Lymphatic Leukemia

Walter Fiedler
New Development in Acute Myeloid Leukemia

Ulrike Bacher
AML – Indication for Transplantation

Natalia Mikhaylova
High Dose Therapy in Hodgkin Lymphoma

Philippe Schafhausen
New Development in Chronic Myeloid Leukemia

12.30 Lunch & Posters

Session 3: Donor Search and Stem Cell Quality

13.30 Chair persons:
Peter Kühnl, Alexander Alyanski

Thomas Eiermann
Donor Search Strategies

Alexander Alyanski
Unrelated Donor Searching in St. Petersburg

Thomas Binder
Typing for HLA-C and KIR

Sergey Alexeev
Mobilization Ability of Hematopoietic Stem Cells

Michael Lioznov
Quality Assessment Hematopoietic Stem Cells

Elena Babenko
Quality Assessment Hematopoietic Stem Cells

14.45 Tea Time & Posters

Session 4: Allogeneic HSCT

15.15 Chair persons:
Hartmut Kabisch, Elmira Boichenko

Francis Ayuk
ATG in Related and Unrelated Bone Marrow Transplantation

Alfried Kohlschütter
Transplantation of Inherited Diseases

Nicolaus Kröger
Allogeneic Transplantation for Myelodysplastic Syndrome

Olesya Paina
Results of Hematopoietic Stem Cell Transplantation in Children with Genetic and Inherited Diseases

Gritta Janka-Schaub
Allogeneic Transplantation for HLH

16.30 Tea Time & Posters

Session 5: Diagnostics & Complications

17.00 Chair persons:
Nicolaus Kröger, Yulia Stankevich

Alexey Chuklovin
Monitoring of Hematopoietic Chimerism

Joachim Dahlke
Fungal Infection post Allogeneic Stem Cell Transplantation

Natalia Zubarovskaya
Systemic Fungal Infection after Chemotherapy and Hematopoietic Stem Cell Transplantation in Children and Adults

18.30 Bus from UKE to the ship

Saturday, 2007-06-23

Session 6: Novel concepts

10.00 Chair persons:
Boris Fehse, Vadim Baykov

Boris Fehse
Forward to Safer Gene Therapy

Vladimir Vavilov
Autologous Stem Cell Transplantation in Patients with Multiple Sclerosis

Vadim Baykov
Adhesion of myeloma cells: possible implications for targeting strategies

Frank Schulz-Kindermann
Neuropsychological Changes Following High Dose Therapy

Yulia Stankevich
Mesenchymal Stem Cell Usage for Co-Transplantation and Therapy of Acute Graft-versus-Host-Disease

Alexander Nemkov
Usage of Bone Marrow Mononuclear Cells in Patients with Heart Disease

11.30 Coffee break

12.30 Working groups:
Clinical studies
Laboratory investigations
Editorial committee E-Journal: Cell and Gene Therapy

14.00 End of the Meeting
