

# Modern Trends in Human Leukemia Book II

## Table of contents

1 001 - Cell Biology of Leukemia.....	2
2 002 - Immunology of Leukemia.....	2
3 003 - Therapy of Leukemia.....	2
4 004 - Oncogenic Viruses in Leukemia.....	3
5 005 - RNA Synthesis and Translation in.....	3

## 1. 001 - Cell Biology of Leukemia

---

[List of Participants.pdf](#)

[Subject Index.pdf](#)

- [009 - Productivity in normal and leukemic granulopoiesis.pdf](#)
- [021 - Cytologie and Cytochemistry of Colony Cells.pdf](#)
- [033 - Cellular Subclasses in Human.pdf](#)
- [047 - Characterisation of normal and Pathological.pdf](#)
- [051 - The Phenotypic Abnormality in Leukemia.pdf](#)
- [063 - In Vitro Colony Growth of Acute.pdf](#)
- [079 - Clinical Utility of Bone Marrow Culture.pdf](#)
- [091 - Proliferative Behavior of Hemopoietic Cells.pdf](#)
- [095 - Leukemic Anaplasias Reflecting.pdf](#)
- [101 - Membrane Remodeling During Phagocytosis.pdf](#)
- [108 - Erythroid Cell Differentiation.pdf](#)
- [125 - Molecular Mechanisms in Erythroid Differentiation.pdf](#)
- [137 - Analysis by Computer-controlled Cell Sorter.pdf](#)
- [151 - Hormone Independent in Vitro Erythroid.pdf](#)
- [161 - In Vitro and Preliminary in Vivo Studies.pdf](#)
- [169 - Target Cells for Transformation.pdf](#)
- [177 - Fusion Experiments with Human Tumor Cells.pdf](#)
- [181 - Effect of Cytochalasin B on Malignant Cells.pdf](#)
- [185 - Growth Regulation and Suppression of Metastasis.pdf](#)

## 2. 002 - Immunology of Leukemia

---

- [195 - Cell-Mediated Immunity to Leukemia.pdf](#)
- [207 - Surface Features of Cells in Human.pdf](#)
- [221 - Immunological Characterization of Blast Cells.pdf](#)
- [229 - Immunological Membrane Markers.pdf](#)
- [237 - Human Leukemia-Lymphoma Associated.pdf](#)
- [243 - Analysis of Human Leukemic Cells.pdf](#)
- [261 - Use of Immunological Reagents.pdf](#)

## 3. 003 - Therapy of Leukemia

---

- [263 - Trends in the Treatment of Childhood Leukemia.pdf](#)

- [271 - The Therapy of Acute Leukemia.pdf](#)
- [285 - Aids in the Management of Leukemia.pdf](#)
- [297 - The Place of Immunological Methods.pdf](#)
- [305 - Perspectives and Prospectives in the.pdf](#)

#### **4. 004 - Oncogenic Viruses in Leukemia**

- [311 - Restricted Addition of Proviral DNA.pdf](#)
- [341 - Infection of Developing Mouse Embryos.pdf](#)
- [327 - Sequences and Funktionen of Rous Sarcoma.pdf](#)
- [357 - Type C Virogenes.pdf](#)
- [375 - Bovine Leukemia Virus.pdf](#)
- [391 - Molecular Evidence for the Association.pdf](#)
- [431 - RNA Tumor Viruses and Leukemia.pdf](#)
- [451 - Murine and Simian C-Type Viruses.pdf](#)
- [457 - Prevention of Herpes-Associated Malignancies.pdf](#)
- [461 - New Properties of Mammalian Cells.pdf](#)
- [471 - Failure to Immortalize Human.pdf](#)
- [475 - The Role of Viruses in Human Leukemia.pdf](#)

#### **5. 005 - RNA Synthesis and Translation in**

- [481 - IS-Elements in Bacteria.pdf](#)
- [485 - Circadian Variation of.pdf](#)
- [491 - Terminal Deoxynucleotidyl Transferase.pdf](#)
- [503 - Terminal Deoxynucleotidyl Transferase.pdf](#)
- [515 - A New, not Virus Related Reverse.pdf](#)
- [531 - Translation Level Control in Normal.pdf](#)
- [541 - Control of Peptide Chain Initiation.pdf](#)
