

Modern Trends in Human Leukemia

Book VIII

Table of contents

1 Preface.....	2
2 001 - Frederick Stohlmann Jr.....	2
3 002 - Clinical Aspects.....	2
4 003 - Cell Biology.....	3
5 004 - Immunology.....	3
6 005 - Molecular Genetics.....	4
7 006 - Early Life and Evolution.....	5

1. Preface

- [Acknowledgments.pdf](#)
- [Contents.pdf](#)
- [Differentiation-Oncogenes.pdf](#)
- [In Memoriam Dr Mildred Scheel.pdf](#)
- [Modern Trends in Human Leukemia 8.pdf](#)
- [Modern Trends in Human Leukemia VIII.pdf](#)
- [Participants of the Meeting.pdf](#)
- [Preface.pdf](#)
- [Participants of the Meeting.pdf](#)
- [Scientific Organisation of the Sessions.pdf](#)
- [Preface.pdf](#)
- [The Mildred Scheel 1988 Memorial Lecture.pdf](#)
- [Wilsede Scholarship Holders.pdf](#)

2. 001 - Frederick Stohlmann Jr

- [001 - Frederick Stohlmann Jr Memorial Lecture.pdf](#)
- [003 - Molecular Analysis of Rearrangements.pdf](#)
- [011 - Interactions Between Hematopoietic.pdf](#)

3. 002 - Clinical Aspects

- [023 - Clinical Aspects.pdf](#)
- [025 - Introduction of Donald Pinkel.pdf](#)
- [027 - Species-Specific Therapy of Acute.pdf](#)
- [037 - Current Issues and Future Directions.pdf](#)
- [046 - The Use of Long-term Bone Marrow.pdf](#)
- [051 - Clinicopathological Features.pdf](#)
- [058 - Current Approaches to Terapy for.pdf](#)
- [065 - Results of Three Polychemotherapy.pdf](#)
- [071 - Results of Treatment in Children.pdf](#)
- [075 - Correlations of Clinical and Laboratory.pdf](#)
- [078 - Central Nervous System.pdf](#)
- [082 - Targeted Plasma Drug Concentration.pdf](#)
- [088 - Use of All-trans Retinoic Acid.pdf](#)
- [097 - Simultaneous Presentation.pdf](#)

- [101 - Phenotype Switch in Acute Leukemia.pdf](#)
- [104 - Expression of Cell Differentiation.pdf](#)
- [109 - Immunologic Subclassification.pdf](#)
- [113 - Constellations of Genetic Abnormalities.pdf](#)
- [121 - Leukemia Cytogenetics in Children.pdf](#)
- [127 - Cytostatic Influence of Thioproline.pdf](#)
- [131 - Diversity Of Molecular Phenotypes.pdf](#)
- [134 - Treatment of Chronic Myelogenous.pdf](#)
- [139 - a Interferon in Myelodysplasia.pdf](#)
- [141 - Use of Investigational Drugs.pdf](#)
- [149 - Xenografts of Pediatric Solid Tumors.pdf](#)

4. 003 - Cell Biology

- [158 - Cell Biology.pdf](#)
- [159 - Stromal-Hematopoietic Interrelationship.pdf](#)
- [168 - Bone Marrow Stromal Cells.pdf](#)
- [172 - Growth and Development.pdf](#)
- [178 - Limited Proliferative Potential.pdf](#)
- [183 - The Effect of Human and Rat Fetal Bone.pdf](#)
- [188 - Aberrant Expression of the Multi-CSF.pdf](#)
- [197 - Infection of Multipotent IL-3-dependent.pdf](#)
- [1xx - Cell Biology.pdf](#)
- [206 - Isolation of Revertants.pdf](#)
- [208 - Comparison of Factors.pdf](#)
- [214 - Establishment of a Leukemic Cell.pdf](#)
- [220 - Establishment of a Hybrid Cell.pdf](#)
- [223 - Effect of Natural and Synthetic.pdf](#)
- [226 - Mechanisms of Glucocorticoid-Induced.pdf](#)
- [233 - Characteristics of 27 Human T-Cell.pdf](#)
- [237 - Intervention in Potential Leukemic.pdf](#)
- [243 - Preleukemia in Experimental.pdf](#)
- [250 - RAS Mutations in Preleukaemias.pdf](#)

5. 004 - Immunology

- [256 - Immunology.pdf](#)
- [257 - Logical Structure of the.pdf](#)
- [260 - Analysis of T Suppressor.pdf](#)

- [263 - Role of the Colony-Stimulating.pdf](#)
- [268 - Activation of CD4-Positive T Cells.pdf](#)
- [273 - Induction of Nonspecific.pdf](#)
- [281 - Signal Transduction Mechanisms.pdf](#)
- [284 - Tumor-Specific Antigens.pdf](#)
- [289 - Modification of HLA Expression.pdf](#)
- [293 - Disorders of the Expression.pdf](#)
- [299 - Monocyte Interleukin-1 Secretion.pdf](#)
- [316 - The Expression of T-Cell.pdf](#)

6. 005 - Molecular Genetics

- [330 - Molecular Genetics.pdf](#)
- [331 - Molecular Analysis.pdf](#)
- [335 - Cloning of the Breakpoint.pdf](#)
- [337 - Variant Breakpoint.pdf](#)
- [339 - Expression of Cellular Oncogenes.pdf](#)
- [343 - c-myc and c-myb Oncoproteins.pdf](#)
- [347 - Isolation and Characterisation.pdf](#)
- [352 - Cell Lineage Specificity.pdf](#)
- [357 - Chromosomal Translocations.pdf](#)
- [360 - Genetic Markers for Oncogenes.pdf](#)
- [366 - Search for Genes Critical for the.pdf](#)
- [386 - ras Gene Mutations and Clonal.pdf](#)
- [390 - Close Localization.pdf](#)
- [393 - HIV-1 HTLV-1.pdf](#)
- [402 - HIV-1 Replication Requires.pdf](#)
- [406 - Use of a HIV-1 Retroviral.pdf](#)
- [407 - Multistage Mastocytoma Model.pdf](#)
- [411 - Purified Bovine NF-xB.pdf](#)
- [416 - Hematopoietic Growth Control.pdf](#)
- [423 - Oncogene Cooperation.pdf](#)
- [428 - Even Transcriptionally Competent.pdf](#)
- [433 - Restriction Fragment.pdf](#)
- [436 - Analysis of c-raf Oncogene.pdf](#)
- [441 - c-ets-2 and the Mitogenic.pdf](#)
- [449 - Induction of Lymphokine-Activated.pdf](#)
- [453 - Expression and Chromosomal.pdf](#)
- [461 - Genetic Characterization of a Human.pdf](#)
- [464 - Human Endogenous.pdf](#)

7. 006 - Early Life and Evolution

- [480 - Early Life and Evolution.pdf](#)
- [481 - Fantasy of a Virus.pdf](#)
- [500 - Clay Minerals.pdf](#)
- [512 - Modern Coding Sequences.pdf](#)
- [520 - Translation to Human.pdf](#)
